

# CORPORATE OVERVIEW

*At Express Scripts, we make the use of prescription drugs safer and more affordable.*

We share a common cause with our plan sponsors, helping them offer a healthy prescription-drug benefit today, tomorrow and into the future. A sustainable pharmacy benefit ensures that every dollar our plan sponsors spend delivers tangible health benefits to their members. Accordingly, we train our people and engineer our systems to enable better health and value at the consumer level. Patient by patient, prescription by prescription, we help deliver better health outcomes while eliminating wasteful spending.
